Jammel Johnson
Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI LLMs. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Programmer Analyst at Guardian life Ltd

May 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full-stack web applications.
- Applied agile methodologies like SCRUM for project management.
- Maintain .Net C# Projects.
- Developed a Front-end application for the Tourism Workers Pension Scheme. (twps.myguardiangroup.com) ASP.NET Core C#.
- Developed APIs.
- Created Database Stored Procedures and Views.
- Maintenance/ changes to the (https://myguardiangroup.com/) React NodeJs

Recent Projects:

MGK Express (Fullstack Web App) – Courier service website for customers who want to order items to a US-based address and receive it in jamaica. (MGK Express)

The project was built using React, Node, Material UI, Bootstrap, Firebase Authentication, and Firestrore database.
